

I am vehemently opposed to the pending vote on June 2 without proper, open, and NATIONWIDE debate. What is being proposed is wrong for the public trust and wrong for freedom of speech and ideas. This is the kind of consolidation that led to Enron and Tyco and damage will be even more severe. It is NOT too late, stop this vote and listen to the voices of Americans. Remember them, the people you are in office to serve? We DO NOT want one voice, but many from media. We are lacking diversity and openness and fairness. That is what you are there to protect!
